CAPABILITY STATEMENT

# Agricultural capacity, delivered.

JOVIX is an integrated agricultural company. We plan, house, feed, protect and move poultry to market as one coordinated system, so the volumes we commit to are the volumes we deliver.

250,000

BIRDS PER CYCLE

6.5

- ✓ Cold storage and delivery
- ✓ Veterinary care and full traceability

Who we serve

- ✓ Processors and wholesalers
- ✓ Hotels, caterers and retailers
- ✓ Institutional and government supply
- ✓ Partner growers and offtakers

Figures illustrative until confirmed.

HOW WE WORK

# One system, from field to cold store.

## 01

### Grow

Maize and soy from our fields become the feed our flocks depend on.

## 02

### Raise

Broilers raised behind one clean biosecurity line, on a planned cycle.

## 03

### Process

Graded and packed to specification, every batch recorded.

## 04

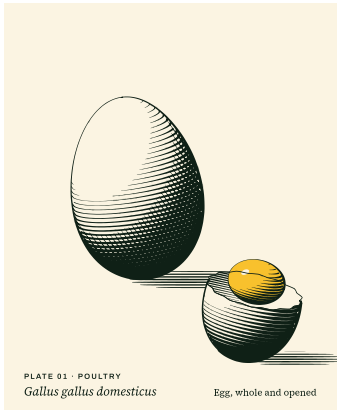

### Deliver

Cold chain from our store to your door, on schedule.

### Quality and compliance

Single-entry biosecurity, veterinary checks every cycle, feed sampled before it reaches a house, and a record for every flock.

### WORK WITH US
